IB Philosophy	MAC's courses use the IB philosophy to encourage the holistic development of all students. The Learner Profile and Approaches to Teaching and Learning are used at all levels so that students develop a better understanding of curriculum objectives. This course will focus on the Learner Profile for being Open Minded and Balanced because the study of Social Studies relies upon students viewing multiple perspectives and challenging their own beliefs. Our Approaches to Learning skill will be Self Management and Research because the course relies upon students properly managing their time and understanding the research process.
