## Overview

**Spanish 30** is an advanced second language course that strengthens students' ability to communicate confidently and effectively in Spanish while deepening their understanding of Hispanic cultures. Building on prior knowledge, students expand their vocabulary, refine complex grammatical structures, and engage in meaningful listening, speaking, reading, and writing tasks that reflect real-world situations. The course emphasizes greater fluency, richer self-expression, and the ability to interpret and respond to authentic texts. Cultural exploration—ranging from contemporary issues to traditions and global perspectives—supports students in developing strong intercultural awareness as they prepare for future language study or practical use of Spanish beyond high school.

## IB Philosophy

MAC's courses use the IB philosophy to encourage the holistic development of all students. The Learner Profile and Approaches to Teaching and Learning are used at all levels so that students develop a better understanding of curriculum objectives. This course will focus on the Learner Profile for THINKERS because we use critical and creative thinking skills to act on complex problems. Our Approaches to Learning skill will be THINKING because we emphasize skills such as reflection and critical thinking.

## Assessment

The assessment plan for the course will be a balance of assessment for learning, assessment as learning, and assessment of learning. Your summative grade will be calculated ***cumulatively*** throughout the semester with the following:
